

**CONSCIOUS
CAPITALISM®**
ARIZONA CHAPTER

Business has the potential to be a powerful force for good.

Free enterprise capitalism has served to lift more people out of poverty than any other socio-economic system ever conceived – empowering social cooperation, human progress, and elevating humanity.

Good business is the answer to many of the global issues that humankind is facing.

Why Conscious Capitalism?

For too long, capitalism in the media has been associated with lying, cheating, manipulating, gaming the system, and taking advantage of society. But for every horror story being told about the selfishness of corporate America and Wall Street, there are thousands of stories of businesses supporting their communities, investing in their employees, and making the world a better place.

We are working to change the capitalism narrative by shining a bright light on good business – telling the stories of conscious Arizona companies (and encouraging others to follow in their footsteps).

The Future of Arizona

The future of business in Arizona and beyond lies with an upcoming generation of consumers, business leaders, and employees preparing to make a difference in the world.

We are passionate about giving them the tools and principles they will need to become the generation that eliminates poverty and elevates humanity.

Help us demonstrate what good business can do. Conscious Capitalism Arizona (CCAZ) is working with business and academic leaders to:

- Create a library of over 1,000 stories of business as a powerful force for good.
- Touch the lives and shift the thinking of 1 million Arizonans through our members, partners, and the many stakeholders we all impact.
- Develop Arizona programs that are replicated nationally and globally.

Get Involved

Arizona businesses are leading the way.

Conscious Capitalism Arizona (CCAZ) was the third chapter in the world, following only Chicago and Australia. Now we are part of a truly global movement with over 50 total chapters including 10 international locations.

By 2026 we will impact 1 million lives in Arizona through Conscious Capitalism and put our state on the map for

doing good in business. The best way to spread this impact is person to person...through real relationships. We at CCAZ accomplish this by providing high-quality community-building events, training courses, and programs that answer the question: "What can I do on Monday morning to build a more conscious business for all of my stakeholders?"
